

Dear students,

In the following videos, I will be using a paid plan for Firebase Cloud functions because unfortunately, Google made them available only for the “Pay-as-you-go” plan. However, you still get 2 million of Firebase Cloud function invocations for FREE every month as well as 10GB of Firebase Hosting and 5GB storage. During the last month, which I spent for testing, I could not reach even 1% of this limit.

Nevertheless, I have to remind you that the information provided by me in this course is for general informational purposes only and I am not responsible for any unpredictable expenses from your side because of some misconfiguration or other mistakes. All the information in the course is provided in good faith; however, I make no representation or warranty of any kind, express or implied, regarding the accuracy, adequacy, validity, reliability, availability, or completeness of any information in the course.
